# INDEX

**Aubry, N.** *See* Li, Ozen, Aubry, Papageorgiou & Petropoulos

**Bailly, C.** *See* Bogey & Bailly

**Bechtold, J. K.** *See* Jomaas, Law & Bechtold

**Bogey, C. & Bailly, C.** An analysis of the correlations between the turbulent flow and the sound pressure field of subsonic jets, 71–97

**Bonfigli, G. & Kloker, M.** Secondary instability of crossflow vortices: validation of the stability theory by direct numerical simulation, 229–272

**Boulanger, N., Meunier, P. & Le Dizès, S.** Structure of a stratified tilted vortex, 443–458

**Bush, J. W. M.** *See* Stocker & Bush

**Busse, F. H.** Bounds on the momentum transport by turbulent shear flow in rotating systems, 303–311

**Carnevale, G. F.** *See* Kloosterziel, Carnevale & Orlandi; Kloosterziel, Orlandi & Carnevale

**Celani, A., Martins Afonso, M. & Mazzino, A.** Point-source scalar turbulence, 189–198

**Demoulin, F.-X.** *See* Reveillon & Demoulin

**Fernandez-Feria, R.** *See* Parras & Fernandez-Feria

**Guardone, A.** Three-dimensional shock tube flows for dense gases, 423–442

**Hsiao, G.** *See* Wang, Yang, Hsiao, Hsieh & Mongia

**Hsieh, S.-Y.** *See* Wang, Yang, Hsiao, Hsieh & Mongia

**Jomaas, G., Law, C. K. & Bechtold, J. K.** On transition to cellularity in expanding spherical flames, 1–26

**Joo, S. W.** A note on the similarity between the normal-field instability in ferrofluids and the thermocapillary instability, 459–464

**Katz, J.** *See* Nimmo Smith, Katz & Osborn

**Kloker, M.** *See* Bonfigli & Kloker

**Kloosterziel, R. C., Carnevale, G. F. & Orlandi, P.** Inertial instability in rotating and stratified fluids: barotropic vortices, 379–412

**Kloosterziel, R. C., Orlandi, P. & Carnevale, G. F.** Saturation of inertial instability in rotating planar shear flows, 413–422

**Law, C. K.** *See* Jomaas, Law & Bechtold

**Le Dizès, S.** *See* Boulanger, Meunier & Le Dizès

**Li, F., Ozen, O., Aubry, N., Papageorgiou, D. T. & Petropoulos, P. G.** Linear stability of a two-fluid interface for electrohydrodynamic mixing in a channel, 347–377

**Li, Y. & Mei, C. C.** Bragg scattering by a line array of small cylinders in a waveguide. Part 1. Linear aspects, 161–187

**Martins Afonso, M.** *See* Celani, Martins Afonso & Mazzino

**Mazzino, A.** *See* Celani, Martins Afonso & Mazzino

**Mei, C. C.** *See* Li & Mei

**Meunier, P.** *See* Boulanger, Meunier & Le Dizès

**Meyer, K. E., Pedersen, J. M. & Özcan, O.** A turbulent jet in crossflow analysed with proper orthogonal decomposition, 199–227

**Mongia, H. C.** *See* Wang, Yang, Hsiao, Hsieh & Mongia
